THINK GLOBALLY

Take part in The World's Largest Lesson to find out about the United Nations Global Goals for Sustainable Development

WHAT ARE THE GLOBAL GOALS?

In September 2015, 193 Global Leaders agreed on 17 Sustainable Development Goals. These Global Goals are focused on ending extreme poverty, fighting inequality and tackling climate change all by 2030.

This plan will only be achieved if everyone takes part, especially children, which is why the World's Largest Lesson aims to educate children and young people all over the world on the Global Goals.

THE GLOBAL GOALS For Sustainable Development

Lesson Reflection

What did you learn today from taking part in The World's Largest Lesson?

Why do you think young people are so important for the Global Goals?

What changes can you make in your own life to meet the Global Goals?
