

GrowingNZ Innovation Challenge

This five lesson programme challenges year 9-11 students to research a real problem within the context of the primary industries. This cross curricular teacher led resource has strong links to Level 4 and 5 of the science, technology, social sciences and English learning areas. Each term, teams can submit digital entries into a nationwide inter-school competition and be in to win up to \$250.

Student learning

Through The GrowingNZ Innovation Challenge, students will:

- › Investigate a problem
- › Develop and evaluate potential solutions
- › Build a prototype solution
- › Gather feedback from stakeholders
- › Persuasively present a solution

Curriculum links

The GrowingNZ Innovation Challenge has strong links to Level 4 and 5 of the science, technology, social sciences and English learning areas.

Competition (Optional)

Any teams using the standalone resource can submit one entry into a national competition. There are four intakes a year and winning entries are chosen and announced at the end of each term. Each winning entry receives \$250.

GrowingNZ young enterprise programmes use a combination of teachers, students and scientists, farmers and plant growers to give students a real world and relevant educational experience. I endorse your workshop, programme and project as highly useful for students and teachers and unreservedly recommend it.

Tony Cairns, Wellington College
