

PREP

Introduction

PREP is a cross-curricular programme where Year 1-8 students design and operate their own functioning community. The programme can be run from 8 weeks to 1 year. It has strong links to the Social Sciences curriculum and allows students to engage in economic activity and contribute to their community. The programme culminates in a market day, with family and friends invited to take part.

Student Learning

Through PrEP, students:

- › Gain knowledge, skills and experiences in the Social Sciences Curriculum (Levels 1 - 4)
- › Learn about managing money, making decisions, production, earning income, spending, saving and governance
- › Learn how to participate and contribute to an economic activity and a community.

Curriculum Links

PREP links student learning to the Economic World Strand of the Social Sciences Curriculum. It also links to the Curriculum Strands of Identity, Culture and Organisation, and Place and Environment. Students will apply skills from the English, Mathematics and Statistics and Technology Curriculums, develop the five key competencies and engage with the vision, principles and values of the New Zealand Curriculum

Year 1-8

8 wks - 4 terms

Social Sciences
English
Mathematics and Statistics
Technology

Free to NZ schools

Led by teachers
[Training Available](#)

No other programme includes all aspects of the curriculum, e.g. maths, literacy, art, problem solving. It's a smorgasbord of learning at its highest.
